

**14th Annual Internet Governance Meeting
25 – 29 November 2019
Berlin, Germany**

Post-Meeting Report for Funded Participants

Please submit the report no later than 15 December 2019 to Ms. Lima Madomi from the IGF Secretariat at: lima.madomi@un.org

First and Last Name: Boniface Lamah

Email address: Lamahboniface5@gmail.com

- 1. How would you describe your participation at the IGF meeting? (max. 150 words)**

I really enjoyed taking this first opportunity to attend for the first time in my life the Internet Governance Forum in order to make known the position of the Young Guinean and give my opinion on some of the dimensions that motivate me such as inclusion and digital mediation at this forum but unfortunately I could not attend. But when this does not take the opportunity is to thank the IGF secretariat and the host country for the scholarship.

- 2. What is the most important benefit you have gained at the meeting? (max. 300 words)**

N/A

3. What inputs do you plan to bring to your community from the meeting? (max. 300 words)

Despite the missed appointment of this year 2019 but with the reading of the reports and some articles published during and after the forum, I intend to get involved in Youth Internet Governance by initiating in collaboration with other young actors the National Forum on Internet Governance for Guinean Youth.

4. Briefly outline your participation at the IGF meeting, including attended sessions, gained knowledge, networking, recommendations for improvements. (max. 500 words)

If I had attended this 14 th Global Internet Governance forum, my interventions and my subjects of interest would focus on the following dimensions:

- The development of community connectivity infrastructures: Given the exponential development of emerging technologies and the positive advantages that accompany them on the economic, social and cultural level as well as the innovation plan, we inhabitants of developing countries in general and young people in particular have to be connected through the promotion of initiatives of wireless community networks. (recommendation 1A of the High Level Group Digital Cooperation)

- Reinforcement of youth involvement capacity: (recommendation 1B of the Digital Cooperation High Level Group)

In short, young people need to be involved in the development of internet and digital policy and strategy in order to influence the debate by our way of thinking and using the used ones, as we digital natives do.

If you receive this report as a supreme body of implication in Internet Governance please take my request to activate the Guinean youth forum for Internet Governance it was my ultimate goal of present participation, I count on your good understanding and I would like to tell you in advance, happy new year 2020 !!
